

Sussex Flag Football Additional Super Bowl Rules 2019

- Game will be played on a 50 yard field with one endzone.
- There will be no kickoffs.
- Each drive will start at the 40 yard line.
- First downs will still be 20 yards and you will have 4 downs to get a first down or touchdown just as you normally would.
- If the team possessing the ball does not score (turnover on downs or an interception) the other team will take over possession at the 40 yard line.
- The play will be blown dead immediately if a turnover occurs (the defense cannot score a touchdown)
- There are no punts. If it is 4th down and you do not pick up the first down or touchdown, the other team will take over from the 40 yard line.
- Clock will stop after touchdowns and any other time the ball has to be respotted to the 40 yard line (any time a new drive is about to start) and will begin again as soon as the ball is spotted at the 40.
- There will be no possibility of getting a safety on defense because there is no other endzone on the field.
- For the purpose of marking off penalties, the 50 yard line will be used as the opposite goal line. If the penalty yardage is more than half the distance to the 50, it will be marked off as half the distance to the goal.
- If we think of other changes or modifications that need to be made, we will let the coaches know before kickoff.
